

# HANDHELD INKJET PRINTERS

Because they're handheld and portable, as well as rechargeable, the application of these machines are limitless - from printing on documents to pharmaceutical bottles to plastic food packaging. They're also perfect for contract packaging companies trying to mark short and sample runs. With a simple, easy to use programming interface, your new handheld inkjet printer will be marking and numbering in just minutes.

## AMI/REINER HANDHELD INKJET PRINTERS ARE IDEAL FOR PRINTING ON:

- paper
- cardboard
- glass
- metal
- plastic
- ceramic

**...and more! The printers can even print on  
bottles and uneven surfaces!**
